

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

PLEASE HELP, First off Congratulations on your appointment to Chair the FCC!

I have a tracfone and I hear that people are trying to increase fees I already pay. Please don't let this happen I own a tracfone because I can't afford to pay the high prices that the others charge. Please I don't make many calls but the ones I do make using my tracfone are important and if you let them raise the charges I will not be able to make the few calls I do make. My tracfone keeps me in touch with sick and aging family in other states. I believe that we that make fewer calls are being punished for making few calls and the "BIG Guys" are going to make out big with this proposition. Please use your heart, head and newly achieved position to help us "Little Guys" on low or fixed incomes who depend on our Tracfone to stay in touch with family. Please support the "Fair Share Plan" which in turn will show that you are there in your new position for us "Little Guy's " too! Thanks so much for taking time to read this little something from a nobody!

mccreacrc@aol.com Christine McCreary 54 Main
St.Box 232 Pike NY 14130 Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary

Sincerely,

Christine McCreary
